Terms & Conditions: Images in this flyer depict land, landscaping and decorator items which are not supplied by Masterton and are not included in the price. Finishes to facades may show upgraded finishes which may not be included. Site costs may vary according to site classification, survey and site inspection, and site conditions including rock and fill, subject to building setbacks. Package pricing is based on information available at the time of publication and is subject to land availability, developer approval, authority requirements and final site investigations. Prices are subject to Statutory Consenting Authority approval and specified conditions, including bushfire requirements and acoustic report. Inclusions are based on the Ultimate Inclusions or Evolve Inclusions package unless otherwise specified. Where any item appears in more than one package or offer, the higher specification will be supplied and no credits will be available. Pricing and inclusions are based on Masterton's standard specification for the advertised design and information available at the time of publication. Additional inclusions including solar or other energy efficiency measures, may be required to satisfy the final BASIX certificate and other site-specific requirements (including requirements arising from the location, orientation or other characteristics of the lot) and may result in additional costs. Anticipated land registration dates are supplied by the developer, are indicative only and are not guaranteed by Masterton. Dates may change due to developer, authority approval, registration and other third-party processes outside Masterton's control. Purchasers should make their own enquiries and rely on the contract, disclosure material and advice from their legal representative before entering into any contract. Masterton reserves the right to revise plans, specifications and pricing for future sales without notice. Please contact a Sales Consultant for more information. All plans and images are subject to copyright protection. The content is correct at the time of printing and supersedes all previous versions published. Printed date 5/11/26.
